FEELING RELAXED

The most important thing for patients and personnel. We don't rest until it's done.

We know exactly what is important: an atmosphere in which patients and staff feel comfortable and safe. This is the priority we set in the development of every single product.

Our specialists have thought of everything to make work easier: closets and cabinet systems with perfectly designed interior equipment offer space for everything needed. From workplace lighting through the clever FF-click accessory system, the flexible marking system on doors and extensions to warming drawers and electronic lock systems.

Functional trolleys for a range of applications from baby changing to intensive care, emergencies and ward rounds enable nappies, scissors, syringes and blood pressure monitors to be taken to where they are needed – directly to the patient. In the operating

theatre, mobile furniture ensures safe, accessible working and the highest levels of hygiene. And in order to guarantee that everything works perfectly, we have enhanced the systems that constitute the sterile equipment cycle with many clever product ideas.

With attractive designs and fresh colours, our products create friendly surroundings. After all, feeling at ease, coupled with trust, relaxation and a pleasant atmosphere, is the first step to getting better.

A fantastic reward: the Red Dot Award 2014 for the MEGAstore transport trolleys, and a bit earlier the Red Dot Award 2011 for the MEGAdrive trolleys, and Red Dot Design Award 2012 for MEGApogress cabinet.

MEGAdrive

ALL-ROUND TALENT

Practical in every scenario – the MEGAdrive functional trolley. An indispensable assistant. In a range of applications, it brings everything that is needed directly to where it is needed – to the patient.

Anaesthesia trolley

Anaesthesia trolley with warming drawer

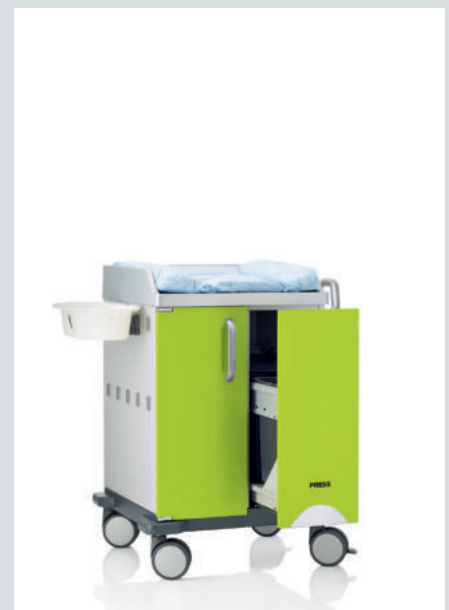

ICU trolley

It shows what it can do. In detail.

One click and it's on. Quick and easy replacement of accessories on the side or multi-functional wall with the FF-click accessory system.

One push and it's closed. Quiet, soft and safe – the fully-extendible, easy-to-clean drawers with rugged, comfortable stainless-steel handles.

Lightweight and agile. The MEGAdrive is easy to steer and manoeuvre on its hygienic, smooth-rolling castors. Rugged corner guards protect the furniture.

Easy and relaxed. The ergonomically-formed push handles made of sturdy, hygienic stainless steel protect the back.

FF-click connector system

Maximum flexibility for mounting accessories on the side and multi-functional rear wall.

Quiet, soft and safe

Fully-extendible, easy-to-clean drawers with rugged, large stainless-steel handles.

Bumper rail and smooth-rolling castors

Optimally manoeuvrable, hygienic steering castors and rugged corner guards protect interiors.

Protects the back

The unique push handle made of strong, hygienic stainless steel facilitates pushing.

Easily opened, securely closed

Doors with a patented hinge.

More options

The FF-click multi-functional wall has room for additional accessories.

Keeping it clear

Synthetic drawer inserts and dividers ensure order.

Well warmed up

Integrated warming drawer for linen or infusions.

MEGAdrive

TAILOR-MADE

Body size, equipment and accessories for the MEGAdrive – just take your pick.

**MEGAdrive
Mini:
450 mm
Width**

DIN or ISO

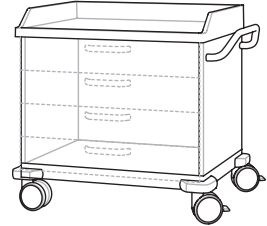

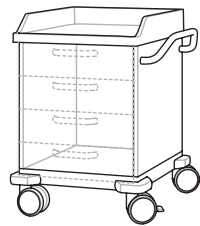

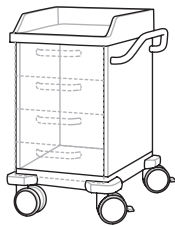

The body size of the DIN trolley meets DIN standards. The ISO module trolley is especially adapted to enable the use of ISO modules (600 x 400 mm).

Entirely according to your wishes

MEGAdrive offers pre-defined equipment variants for each of the 12 standard sizes – resulting in around 60 basic versions. Together with the corresponding accessories, you instantly obtain the functional trolley exactly as you want it.

FF-CLICK

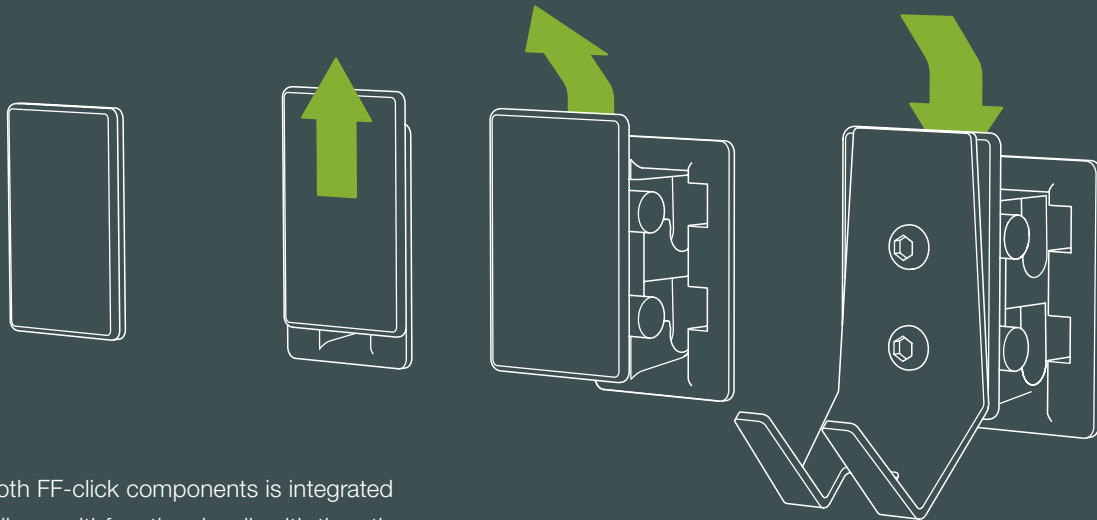

THE MEGATRICK

Change accessories in an instant with the FF-click connector system.

Minimum effort – maximum functionality.

The unique FF-click system offers a solution for every day-to-day medical task.

One part of both FF-click components is integrated in the side wall or multi-functional wall, with the other directly on the accessory part. Simply remove the top surface – insert accessories – done.

reddot design award
winner 2012

Better organisation with the innovative FF-click connector system. The trick with the "Click!"

Put in the right light
Economical LED interior lighting

Flexible
Multi-functional side wall, guide elements,
shelf carrier and telescopic pull-outs

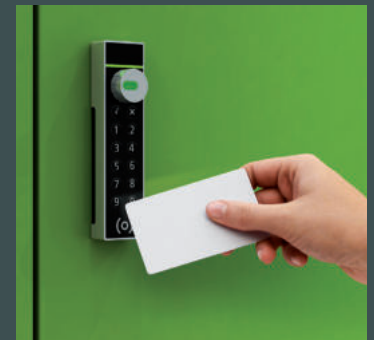

To ensure the perfect organisation of workplaces, the specialists at FF Co. Ltd. develop practical details. Small containers clicked onto the rear wall keep work surfaces clear, maintaining tidiness and cleanliness. LED light bars illuminate the workplace independently of room lighting. Glass fronts spare staff from long searches for the correct medicine. Sensitive pharmaceuticals can be stored in an integrated fridge – and everything that doesn't belong in unauthorised hands are best kept in the integrated safe.

**High-quality.
External hinge**

**What's inside is marked on the outside.
The right marking**

**That much is sure!
The electronic lock system**

**Especially pleasant.
Our warming drawers**

**Precise installation.
For an optimal room range**

MEGAstore

ITS ACE IS ITS SPACE.

The new MEGAstore complements the fleet of medical transport trolleys by FF Co. Ltd. with a lot of extra volume. For a lot of extra material for long working days.

Loaded in the morning, no need to re-stock all day.

The MEGAstore offers ample space for an entire day's worth of consumables. Individually usable modules can be used to store everything needed in the day-to-day running of a clinic. Dust-tight and clean behind space-saving roller shutters or individually opening hinged doors.

Complete standard-conformity.

Nevertheless, truly extraordinary.

The ISO module trolleys are especially adapted to enable the use of ISO modules (600 x 400 mm). Through flexible module carrier walls, all standard brands of ISO module baskets can be retrofitted, making MEGAstore the perfect base for integrated solutions. All over the world. And yet it still stands out. It doesn't go unnoticed: through its award-winning top design and a wide variety of available colours to bring style and cheer to all surroundings.

Chic and smart.

At FF Co. Ltd, function and design, German technology and high-quality processing are inextricably intertwined. Stylish and modern in shape and colour, smart in its versatility as a valuable assistant – this is why the MEGAstore was distinguished with the Red Dot Award 2014.

Extremely easy to manoeuvre.

Two long, ergonomic push handles on both sides. Their large-dimensioned diameters make them fit particularly well in the hand. As a result, the trolley is easy to move. By people of all sizes.

Sturdy with smooth rolling castors.

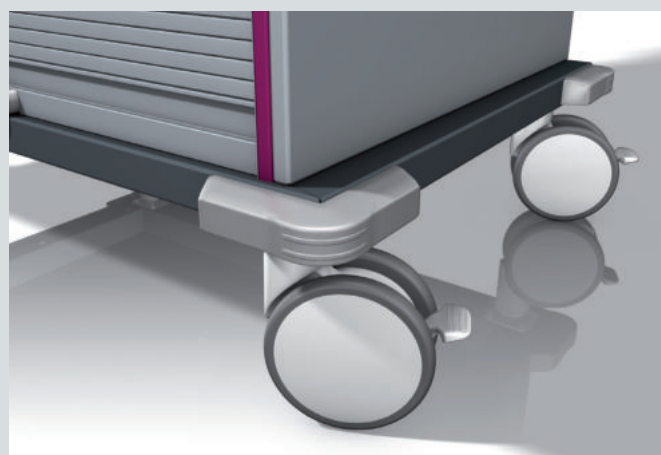

FF's proven high quality is featured in the robust corner guards which provide all round protection for the trolley and other equipment or surfaces that it might come in contact with. The double, extra smooth rolling castors ensure easy manoeuvring even when fully loaded. The brakes and directional locks on two castors offer additional safety when parked.

Clean and closed. Easy to open.

In order to ensure that everything is kept clean until needed, an all-round seal protects against dust and dirt. High-quality hinges create an extra large opening angle of 270°.

THINKING AHEAD

The 360°-service from FF Co. Ltd. begins long before your decision to purchase.

Clients' requests – the technicians at FF Co. Ltd. like to fulfil them before they even arise. Hand in hand with creative product designers, they develop ergonomically optimised furniture and equipment with practical details to guarantee tidiness and order. This is what makes work a real pleasure. And through design and colour, freshness and an atmosphere of well-being are brought into rooms for staff and patients alike.

Sooner is better. When equipping new installations, the consultants at FF Co. Ltd. prefer to collaborate with planners and architects from the

very beginning. After all, the best – and most cost-effective – solutions can be reached while rooms and equipment can still be changed and adapted to each other.

Directly on site – the best solution is impossible to see anywhere else. When re-equipping existing installations, we analyse the situation on site, offer assistance during planning and accompany the execution of the project right up to after-sales support. Without added price. Because only the best will do.

COLOURS. CHEER.

Fronts in bright tones add a splash of colour and guarantee good moods all round.

An easy decision. Which colour creates the right atmosphere in the room – a subtle pastel shade or trendy and bright? With a choice of 22 colours selected as standard by the expert consultants at FF Co. Ltd., the ideal tone for everyone is sure to be there.

For special requests and favourite colours, however, we would also be pleased to flip through the colour sample cards from RAL, NCS or Pantone and provide you with an individual offer.

3. Packing

Packing tables

Cleaning and
disinfection
equipment

Sterilisers

1. Usage

Mobile assistants. Sterile equipment for operating theatres, outpatient departments or wards is safely transported on disposal tables and hook trolleys from FF Co. Ltd.

2. Disposal/cleaning

Absolute hygiene. Exceptionally designed cleaning table unit made of high-quality 18/10 stainless steel show viruses and bacteria the door.

3. Packing

Freshly packed. On the rugged packing table with optimal height adjustment, sterile equipment is re-packed easily and perfectly in the central sterilisation area.

The CLEANassist product range by FF Co. Ltd. copes smoothly, economically and hygienically with procedures in the operating theatre and outpatient department, from cleaning and packing to transporting and storing.

4. Transport

Innovative shuttle system for transport and storage. No manual re-loading at transport points required. After packing, up to several hundred kilos can be sent to the autoclave and stored in the corresponding system.

5.1. Pass-through cabinet

5.2. Sterile storage

Space-saving storage until next use: in the closed shuttle transport trolley or pass-through compartment systems in shuttle parking cabinet or open on shelves. Flexible and customised.

The FF Co. Ltd.
Member of the Rev Group

FF Fémfeldolgozó Co. Ltd. is a medium-sized, family-owned company in Hungary, and since 2005 it is the member of the Rev Group (www.revgroup.hu).

For decades we have been specialists in the processing of stainless steel and electrolytically galvanized steel. With our modern machine park, electropolishing facility and powder coating capabilities the main focus of our production program are products for professional commercial kitchens, complete systems for shop-baking equipment, accessories for sterilization equipment and our own "medical line" with furniture for clinics, ambulances and medical practices of the highest quality.

With highly qualified technical staff we are constantly working to improve our products and to implement individual customer requests.

Our head office is located in Budapest, the production site in Mezőtúr.

The product range consists of cabinet systems, functional trolleys, sterile services equipment and mobile furnishings for the operating room.

All of FF Co. Ltd. Professional's divisions have DIN EN ISO 9001:2015, 14001:2015 certification, guaranteeing a high standard of reliability and customer orientation.
