FF MED MEGASTORE

The large-capacity trolley by FF Co. Ltd.

Former serial product of BLANCO Professional

An unbeatable team

MEGApgress, MEGAdrive, PROassist, MEGAstore, CLEANassist

The FF MED brand provides system solutions for medical functional areas in clinics and hospitals, as well as outpatient departments and medical practices.

MEGApgress is full of rich features. Perfectly-fitted furnishings are planned for every imaginable functional area, for example sterilisation areas. Instrument and implant storage cabinets, endoscope and catheter storage cabinets – MEGApgress provides a solution to all technical requirements in hospitals and medical practices.

Awards: Reddot Design Award 2012

The "little brother" **MEGAdrive** is the mobile addition to the MEGApgress cabinet range. Everything that needs to be brought to patients quickly can be loaded into, hung onto or clicked into it. Awards: Reddot Design Award 2011

Our mobile functional furniture FF MED **PROassist** provides safety and high quality in every respect. The range contains a wealth of clever, mobile assistants for all the functional areas of a clinic. There is a focus on flexibility and hygiene in all of the products, whether they are furniture, seating or equipment. All of the furniture is made of stainless steel and thus corrosion-resistant, resistant to disinfectants, hygienic and easy to care for.

The **MEGAstore** offers ample space for an entire day's worth of consumables. Individually usable modules can be used to store everything needed in the day-to-day running of a clinic. Dust-tight and clean behind space-saving roller shutters or individually opening hinged doors. Stylish and modern in shape and colour, smart in its versatility as a valuable assistant – this is why the MEGAstore was distinguished with the Red Dot Award 2014.

Our sterile supply and disposal components have proven themselves in countless central sterilization departments.

With our expanded **CLEANassist** product line, we are presenting an integrated system solution that implements innovative ideas in order to optimally organize the sterile supply and disposal cycle.

As a system supplier in the medical technology field, we offer not only comprehensive product know-how but also competence in the organisation of logistical processes in the hospital. We respond individually to your needs to create a suitable solution for any requirements.

Our systems are designed to be modular and flexible. They can be easily customised and supplemented.

Everything from a single source.

FF MED - Your medical technology system supplier.

ITS ACE IS ITS SPACE

The new MEGAstore complements the fleet of medical transport trolleys by FF Co. Ltd. with a lot of extra volume. For a lot of extra material for long working days.

Loaded in the morning, no need to re-stock all day.

The MEGAstore offers ample space for an entire day's worth of consumables. Individually usable modules can be used to store everything needed in the day-to-day running of a clinic. Dust-tight and clean behind space-saving roller shutters or individually opening hinged doors.

Complete standard-conformity.

Nevertheless, truly extraordinary.

The ISO module trolleys are especially adapted to enable the use of ISO modules (600 x 400 mm). Through flexible module carrier walls, all standard brands of ISO module baskets can be retrofitted, making MEGAstore the perfect base for integrated solutions. All over the world. And yet it still stands out. It doesn't go unnoticed: through its award-winning top design and a wide variety of available colours to bring style and cheer to all surroundings.

Chic and smart.

At FF Co. Ltd., function and design, German technology and high-quality processing are inextricably intertwined. Stylish and modern in shape and colour, smart in its versatility as a valuable assistant – this is why the MEGAstore was distinguished with the Red Dot Award 2014.

Extremely easy to manoeuvre.

Two long, ergonomic push handles on both sides. Their large-dimensioned diameters make them fit particularly well in the hand. As a result, the trolley is easy to move. By people of all sizes.

Sturdy with smooth rolling castors.

FF Co. Ltd.'s proven high quality is featured in the robust corner guards which provide all round protection for the trolley and other equipment or surfaces that it might come in contact with. The double, extra smooth rolling castors ensure easy manoeuvring even when fully loaded. The brakes and directional locks on two castors offer additional safety when parked.

Clean and closed. Easy to open.

In order to ensure that everything is kept clean until needed, an all-round seal protects against dust and dirt. High-quality hinges create an extra large opening angle of 270°.

THE FF CO. LTD. 360° APPROACH

PLANNING AND PRODUCTION FROM A SINGLE SUPPLIER

At FF Co. Ltd. developing new innovations before customers even notice they're missing is our ambition. Therefore, we have brought both experienced technicians and imaginative creative types on board. They bring ergonomics, order and freshness in a prize-winning design to your rooms.

Our focus is not on equipment, but rather on your patients, and we want them to feel comfortable and recover quickly. We also play a role in ensuring you and your employees enjoy work even more.

It becomes tangible on site. To achieve the best product and design solution, it is important that the FF Co. Ltd. consultant and the architects and planners collaborate from the initial design phase.

If you want to re-equip an old building, our complete support ranges from on-site analysis to planning and realisation, up to after-sales support at the property. Unique. Without added price.

KALEIDOSCOPE OF COLOURS

With coloured fronts, the MEGAstore really makes its mark.

From subtle pastel shades to bright and trendy tones, it always brings the perfect splash of colour. Opt for a shade to match your corporate design for even more atmosphere. Or go for a colourful

eye-catcher. One of the 22 colours selected by expert advisers at FF Co. Ltd. is guaranteed to be just right for you.

The FF Co. Ltd.
Member of the Rev Group

FF Fémfeldolgozó Co. Ltd. is a medium-sized, family-owned company in Hungary, and since 2005 it is the member of the Rev Group (www.revgroup.hu).

For decades we have been specialists in the processing of stainless steel and electrolytically galvanized steel. With our modern machine park, electropolishing facility and powder coating capabilities the main focus of our production program are products for professional commercial kitchens, complete systems for shop-baking equipment, accessories for sterilization equipment and our own 'Medical Line' with furniture for clinics, ambulances and medical practices of the highest quality.

With highly qualified technical staff we are constantly working to improve our products and to implement individual customer requests.

Our head office is located in Budapest, the production site in Mezőtúr.

The product range consists of cabinet systems, functional trolleys, sterile services equipment and mobile furnishings for the operating room.

All of FF Co. Ltd. Professional's divisions have DIN EN ISO 9001:2015, 14001:2015 certification, guaranteeing a high standard of reliability and customer orientation.
